Platform VALUTAMI - View exam dates and register.

1. You can access the platform here: **https://esami.unipi.it/**
2. To register for an exam, click on **“Esami / Nuova iscrizione”**

3. In the registration form, you can search either by the **lecturer's surname** (*Cognome del docente*)

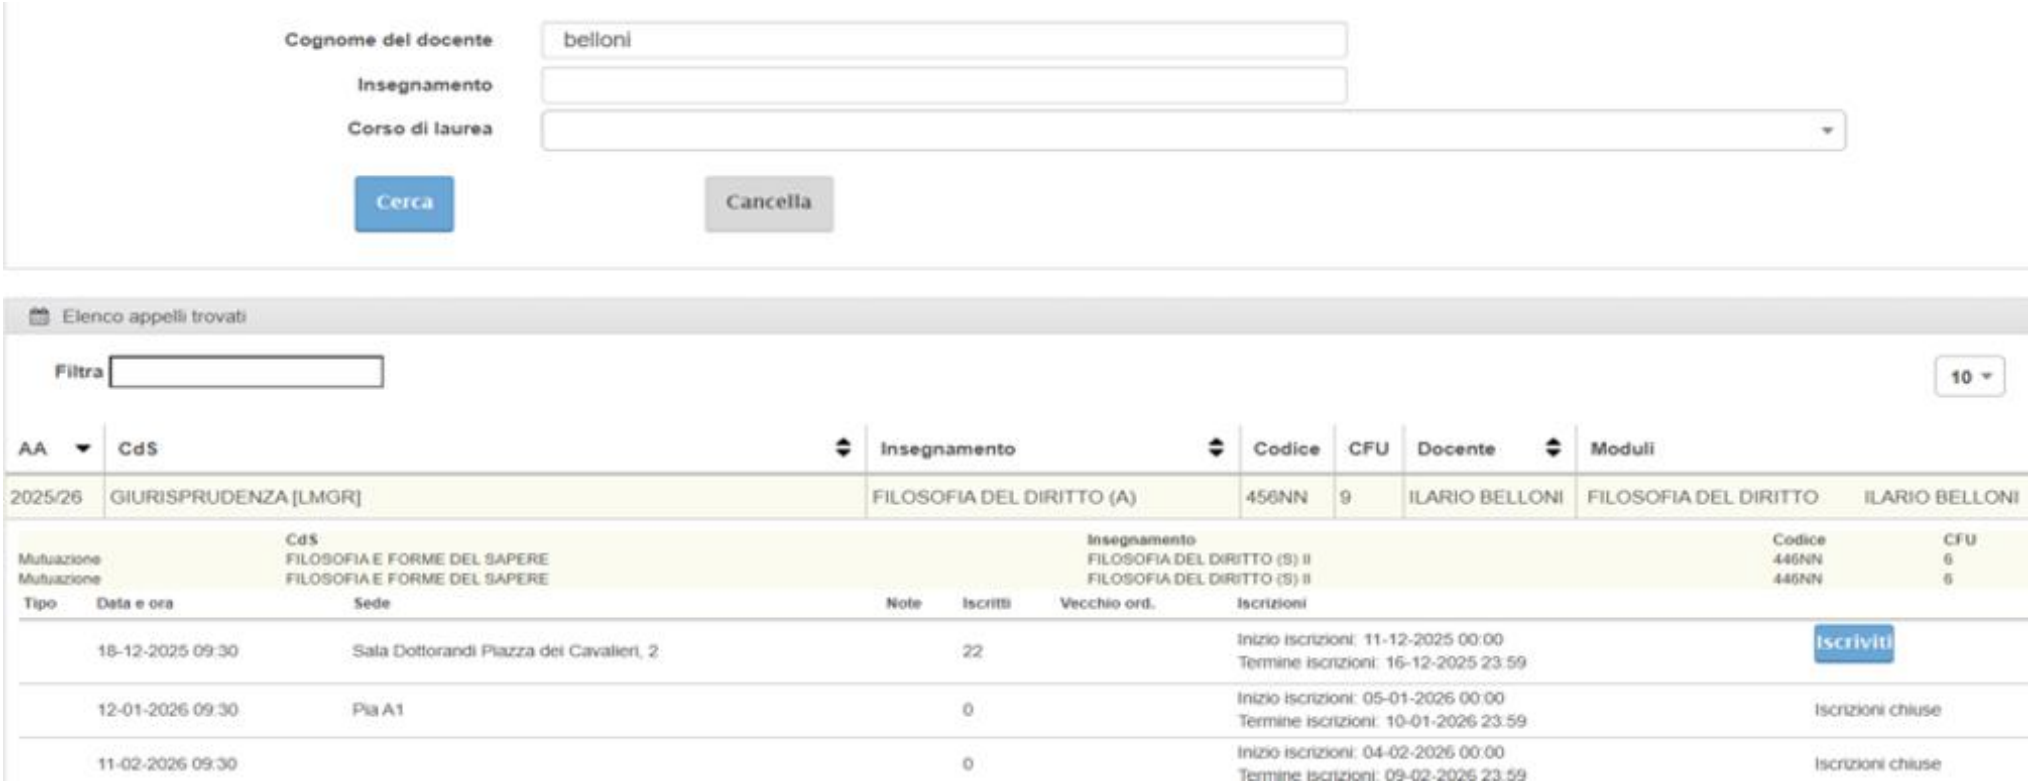

4. Always check the **course code** that appears after clicking "**cerca**".

   Since a lecturer may teach more than one course, make sure you select the **course corresponding to the code indicated in your Learning Agreement**.

   After clicking "**cerca**", all the exam dates for the selected course will appear.

   You can register for an exam when the "**Iscriviti**" button is available. **If the button is not visible yet, it means that registration for the exam has not opened yet.**

Generally, **students can register for an exam from one to two weeks before the exam date, up until two days before the exam**. However, the registration period may vary, as each lecturer sets.

To register for an exam, you will need your **student ID number**, which you can find on **ALICE**.
